(Testimonial)

"Off the Press designed a beautiful momento for the 100th anniversary of our church. An ornament was created to resemble one of the original stained glass windows that exists in the church today. Choosing to have these ornaments duplicated in a large quantity, we sold them at one of our yearly fundraisers. Not only did this momento create an income for our church...it also gave our members a beautiful keepsake honoring our 100th anniversary. Something they could display all year!"
